## EDUCATION

---

- **Indian Institute Technology, Kanpur** Kanpur, India  
*Master of Science by Research in Computer Science and Engineering; CPI: 9.00/10.00* Jan'17 - Oct'19
- **Kamla Nehru Institute of Technology** Sultanpur, India  
*Bachelor of Technology in Computer Science and Engineering; 75.92 %* Sep'09 - Jul'13

## RESEARCH WORK

---

- **Reducing Policy Search Space using Guide-Actor-Critic Algorithm** IIT Kanpur  
*Prof. Indranil Saha* Jan'18 - Oct'19  
Developed a Reinforcement Learning based algorithm to synthesize a controller for Quadrotor. The algorithm uses Actor Critic setup of Reinforcement Learning and reduces the vast policy search space using a guide network.
- **Formal Verification of Controllers for UAVs** VERIMAG Institute, France  
*Prof. Indranil Saha & Prof. Thao Dang* Jun'19 - Sep'19  
Developed a frameworks to verify the tight bounds of a Neural Network controller for UAVs in a closed loop system with nonlinear plant dynamics.
- **DeepControl: Energy-Efficient Control of a Quadrotor using a Deep Neural Network** IIT Kanpur  
*Prof. Indranil Saha* Jun'18 - Mar'19  
Synthesized controllers for a real-world quadrotor by approximating Model Predictive Controller (MPC) using Deep Neural Networks (DNN). The controller synthesized using the DNN required low computation hardware but is able to perform the trajectory tracking close to the MPC.

## PUBLICATION

---

- **DeepControl: Energy-Efficient Control of a Quadrotor using a Deep Neural Network**  
Pratyush Varshney, Gajendra Nagar, Indranil Saha  
*In Proceedings of the IEEE/RSJ International Conference on Intelligent Robots and Systems (IROS 2019)*  
IEEE, Macau, China, November 4-8, 2019

## RESEARCH POSITIONS

---

- **Visiting Research Scholar** VERIMAG Institute, France  
*Formal Verification of Autopilot Software for UAVs* Jun'19 - Jul'19
- **Senior Student Research Associate** IIT Kanpur  
*A framework for synthesizing robust motion primitives for UAVs* Jan'17 - Oct'19

## PROJECTS

---

- **Neural Network Based Modeling and Control of Quadcopters** IIT Kanpur  
*Prof. Indranil Saha* Jan'17 - Jun'17  
Learned the non-linear dynamics of a Quadrotor using Deep Neural Networks via supervised learning. The framework used px4 as the autopilot and Gazebo as the simulator. The DNN could predict the next state of the quadrotor with high accuracy given its previous state and control.
- **Formal Verification of Artificial Neural Networks: A Survey** Computer Aided Verification  
*Prof. Indranil Saha* Jul'17 - Nov'17  
Performed an in-depth survey of formal verification strategies for Neural Networks. Analyzed and compared verification strategies including Abstract Refinement, Integer Constraint Programming and SMT-based techniques.

- Playing Atari Games using Reinforcement Learning** Neural Networks  
*Prof. Laxmidher Behera* *Jan'17 - Mar'17*  
 Developed a reinforcement learning based application in python that could play the Atari pong game with human level expertise using policy gradient techniques.
- Aayush: Online Medical Assistance Portal** B.Tech Project  
*Prof. Abhay Kumar Agarwal* *Jul'12 - Mar'13*  
 Created a Java-based web application for medical assistance. The users could locate and seek appointments from doctors, access medical reports, migrate to doctors with specializations, etc. The platform also enabled the communication between doctors seeking medical advice from their peers.

## EXPERIENCE

---

- Adobe Systems** Bangalore, India  
*Member of Technical Staff* *Oct'19 - Present*
  - Developing introspection APIs for Unified Extensibility Platform for Adobe's creative cloud plugin.
- Indian Farmers Fertilizer Cooperative** New Delhi, India  
*Senior Engineer* *Mar'14 - Dec'16*
  - Document Management System (DMS):** Developed a DMS using J2EE-struts framework to store documents in the Oracle database, provide quick access and an access control mechanism to the users. This reduced a lot of overhead of maintaining and securing the valuable documents manually.
  - Management Information System :** Implemented the module of Employee Leaves Management in the Management Information System (MIS). The module was developed using the Oracle Application Development Framework (ADF).
  - Oracle ERP :** Created and deployed new forms and reports for the Oracle ERP system as per the users requirements.
- Nokia (Formerly Alcatel-Lucent)** Gurgaon, India  
*Software Engineer* *Nov'13 - Mar'14*
  - SIP Protocol Tool:** Part of a team that developed a tool for testing the Session Initiation Protocol (SIP). The tool could simulate SIP calls and interact with the CAMEL stack as well as creating logs that were used for debugging.
  - Instant Convergent Charging System (ICC):** Implemented new functional requirements in the flexible and configurable convergent payment system - ICC. Developed new services for SMS and SIP, as per the clients requirements.
- Aditya Birla Nuvo Limited** Jagdishpur, India  
*Internship Trainee* *Jun'12 - Jul'12*
  - Conversion of Excel reports to online project:** Developed an online Excel converter in Java for a web application. The converter generated formatted Excel reports based on the data queried from the web interface of the application.

## POSITIONS OF RESPONSIBILITY

---

- Reviewer for Indian Control Conference (ICC) 2018, 2019
- Training and Placement Coordinator, KNIT Sultanpur.
- Served as Senior Executive Coordinator for Indian Society for Technical Education (ISTE), KNIT Sultanpur.
- Served as Senior Executive Coordinator for Cultural Council, KNIT Sultanpur.
- Served as Co-Executive coordinator for Computer Society of India, KNIT Sultanpur.
- Taught Programming in C, to the first year students, KNIT Sultanpur.

## ACHIEVEMENTS

---

- IROS 2019 travel grant for research presentation
- Secured All India Rank 653 in GATE 2015 among the 115425 shortlisted candidates..
- IBM Certified Academic Professional for DB2.
- A+ Certification in J2EE- Struts with Hibernate from Hewlett-Packard Education Services.
- IBM ‘The Great Mind Challenge’ participation for the project on Smart City.
- Institute Merit Scholarship from UPTU consecutively for 3 years.

## AWARDS AND RECOGNITION

---

- Secured 1<sup>st</sup> position in Programming competition organized by Computer Society of India.
- Secured 1<sup>st</sup> position in IT-BHU Robo-opus 2010 organized by Robosapiens.
- Secured III<sup>rd</sup> position in the Embedded Security Challenge at CSAW’18 at IIT Kanpur.

## STUDENTS MENTORED

---

- Mrinal Dogra (B.Tech CSE, IIT Kanpur)  
Project: Neural Network Based Modeling and Control of Quadrotors
- Amit Yadav (B.Tech CSE, IIT Kanpur)  
Project: Reinforcement Learning based control of Quadrotors
- Gajendra Nagar (B.Tech AE, IIT Kanpur)  
Project: Model-Predictive Control of Quadrotors

## TECHNICAL SKILLS

---

- **Languages:** C/C++, Python, Java, JavaScript, SQL, MATLAB, Bash
- **Libraries/Technologies:** Oracle Application Development Framework(ADF), J2EE-Struts, Nodejs, Oracle Forms and Reports
- **Robotics:** Robot Operating System (ROS), Gazebo, RotorS, px4-autopilot
- **Machine Learning:** Reinforcement Learning, Tensorflow, Supervised Learning, Eigen, Numpy
